HOW LIPOSIN WORKS...

The fat in your food will chemically bond to **LIPOSIN** preventing it from being digested or absorbed. Additionally, **LIPOSIN** added key-nutrients to aid in burning fat by increasing fatty acid metabolism. **LIPOSIN**'s proprietary pH-modified formula starts working within seconds... for faster results right from the first capsule! Lastly, **LIPOSIN** offers a safe solution to controlling dietary fat intake without harmful side effects, commonly seen with the prescription pharmaceuticals (i.e.: liver abnormalities, impotence, oily discharge, etc.) Ultra powerful formula starts working at blocky fat the 1st day you use it!
