January 21, 2009

To All Distributors,

As you know we have (5) items that are affected by the peanut butter recall. We are asking all our distributors to submit an accounting of the recalled product that is currently in your warehouse. We need to have the quantity as well as the expiration dates of the products. We will be replacing the product to you once we have that information. The range of best by dates is **06/Sep/09 thru 16/Jan/10**.

- Duo Peanut Butter
- Cookie Peanut Butter
- Cookie Peanut Butter Choc Chip
- Cookie Lite Bites Peanut Butter Chocolate Chips
- Brownie Peanut Butter

The product will need to be quarantined and tagged "Not for Consumption". After the accounting of all recall product is submitted to us, arrangements will be made to have the product destroyed possibly with your local FDA branch's supervision. Verification of destruction must be received by CJFP. This is for all consumers' protection.

If you have not already done so, please contact all of your retail customers to remove all recalled products from their shelves. Please have them send you an inventory of the recalled product with best by dates (06/Sep/09 to 16/Jan/10). In the interest of quarantined space, they will need to send you only the film / wrapper from the bars/cookies/brownies to verify the inventory. The film/wrappers will then need to be forward to CJFP so verification can be submitted on it's destruction as required by the FDA. Since the retailers will have smaller amounts on hand they can destroy the product but need to verify to you that it has been done per FDA regulation. Using proper safety precautions to prevent any possible contamination remove the product from the wrapper and put the product in a garbage bag and pour some bleach over it so that it can not be consumed by anyone. Another way is to crush the product in a compactor or take directly to a dump site. These are just suggestions on proper disposal; the priority is consumer safety and the verification all products have been removed from circulation.

Email or fax Chef Jay's with the inventory counts that you will receive from your retailers so we can replace the product to you.

When a consumer calls you or one of your retailers about the products you can direct them directly to Chef Jay's. We are setting up a separate number, **(702) 450-7711** just for the recalls. They can also visit our web site at [www.chefjays.com](http://www.chefjays.com) for information or email [customerservice@chefjays.com](mailto:customerservice@chefjays.com). We will replace product to the consumers directly. This should help you and your retailers from getting returns over the next several months. We greatly appreciate your help and understanding in this difficult situation.

Regards,  
Jay Littmann  
President/CEO
